PROSPECTUS OF THE NEW LIBRARY
OF LAW AND EQUITY, under the direction of Francis J. Troubat, esq., of Philadelphia, Hon. Ellis Lewis, of Lancaster; and Wilson McCandless, esq., of Pittaburgh.

This work contains the best productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear, they become monopolies in the hands of booksellers in the Atlantic cities. Under the plea of right, acquired by the addition in soliciting for treatment the WORST POS-notes of American decisions, the latter claim an undivided title to those works, and set a burdensome price on them. The publishers of the work new offered to the profession throughout the Union, will not respect such tides, but will reprint the standard British law books as fast as they emanate from the London market. Should new editions of the work working and Archbold, appear, they shall also be included, and digests of equity and law decisions—works which have been studiously kept out of the Law Library published at Philadelphia—shall have a place in the proposed new one, together wite very new valuable English treatise on chancery or common law.

If This work will be issued monthly, in numbers of 160 pages, printed on fine white pager, and good new long primer type, at severe dollars per an num, payable half yearly.

and no expense withheld, to make the Pavilion equal
in all respects to any similar establishment in this
country. The beautiful scenery, invigorating mountain air, extensive and diversified rides, and it
preximity to Cherry Valley and Cooperstown
render Sharon a most desirable residence for those
in search of pleasure; whilst the established efficac
of the white sulphur spring presents to the suffering invalid all that can be desired. Physicians o
eminent standing have pronounced the sulphur
waters of Sharon unequalled in this country; and the
thousands that have resorted thither in search of
health, after years of affliction, will corroborate fully
this medical testimony. These waters have resulted
in the entire restoration of persons laboring under
rheumatism, bilious affections, dyspepsia, and every
variety of cutaneous diseases. In order that the
reader may be enabled to form some idea of the real
character of the white sulphur water at Sharon, an
analysis is given below of this spring, and also of
the celebrated white sulphur in Virginia. Whilat
the former contains 20 5-12 cubic inches sulphur-

Charles G. Page, M. D., Professor of ChemisTv.

The conveniences afforded by the new and extensive edifice in which the lectures are now delivered, are such as will facilitate very much the imparting of medical instruction. The lecture rooms are admirably arranged, well lighted, and warmed. The museum is increasing daily in importance and interest. The rooms of practical anatomy afford advantages rarely equalled; they will be opened the first week of October. The infirmary is under the immediate direction of the faculty of medicine, and this, with the public dispensary, will continue to present numerous and valuable cases for clinical instruction. Clinical lectures will be delivered at least twice a week, and operations performed before the class.

French and English seminary for Young Ladies, corner of E and 9th streets, Washington city.

THE location of this seminary is one of the most desirable in the city, on account of its healthy and airy position. The house is large and commodious, with ample grounds and other facilities for amusement and recreation. The principal, so well and favorably known in this city, and in New York, from her long experience in teaching, hopes to give entire satisfaction to all who may confide their daughters to her care. She is a native of France, and familiar with its language and literature, and conversant with the best and easiest modes of imparting to her pupils a perfect knowledge of that language, so that they can not only read and write, but speak it fluently. She has secured able as instants for various departments, so that all branches of an English as well as French education will be thoroughly taught. Pupils who reside in

write, but speak it fluently. She has secured able assistants for various departments, so that all branches of an English as well as French education will be thoroughly taught. Pupils who reside in the family have the peculiar advantages of hearing, and conversing at all times in the French language, and of perfecting themselves in the science of music being under the surveillance of an experienced teacher. The course of instruction, besides the usual elementary branches, includes all the higher studies pursued in the most approved northern seminaries. The discipline is mild and affectionate, yet decided, and is mantained by appeals to the affections and conscience of the pupil; it is designed, by a proper development and cultivation of the better qualities of the heart, to bind more affectionately the pupil to her teacher, and by it to secure obedience. As sound physical, moral, and intellectual improvement and culture, are the great objects desired, it is the aim of the principal not so much to crowd the memory with words, as to draw forth and train the systematic and vigorous action, the observing, reflecting, and active powers of the mind. The charges to those who reside in the family are, for board and tuition in all the branches of French and English, \$200 per samum for a single pupil; but when two or more are entered at the same time, a liberal deduction will be made. The additional charges per quarter are for music, piano, and guitar, \$15; use of instrument, \$2.50; vocal music, \$5. To day scholars, the charges for tuition in the first department in French or English, are \$10; together, \$12; in the second class French or English, \$8; together, \$12; in the second class French or English \$5; together \$9; in the second class French or English \$5; together \$8; Latin \$4, other languages, drawing, painting, and dancing; at professor's charges. DR. DYOTT'S ANTI-BILIOUS PILLS. A S a family medicine, a mild and gentle purgative, and purifier of the blood. The genera use of these celebrated pills throughout the United States for these forty years past, and the strong recommendations they have sequired from all classes of our fellow-citizens, places them in a much more elevated situation in public estimation, than any other remedy which has heretofore been introduced.

The following are among the many diseases for

of our fellow-citizens, places them in a much more elevated situation in public estimation, than any other remedy which has heretofore been introduced.

The following are among the many diseases for which Dr. Dyott's celebrated pills are so deservedly distinguished for curing. By their counteracting properties in removing the bile from the stomach, they prevent and cure the bilious fever; chilis, or ague and fever; spring and fall fevers; yellow fever; bilious cholic; pleurisy; dysentery; worms; bilious vomiting; sick and foul stomach.

By cleanaing the bowels and stomach from all impurities, they reatore the loss of appetite, remove flatulency, cure the headache, habitual consiveness, colds, coughs, asthma, epileptic flts, hypochondria, hysterical complaints, stranguary, gravel, &c.

By a general and copious use, they will be found very beneficial in curing the rheumatism and gout, lumbago or pains in the back.

All impurities in the blood yield to their happy effects, whether proceeding from constitutional ailment, or from indiscreet interaperance.

These celebrated pills have been used to very great advantage in curing the dyspepsia, or indigestion, bronchitts, liver complaint, &c.

They are an infallible medicine for female complaints generally, and especially for removing those obstructions which are the source of their ailments at certain periods; they possess the eminent advantage over most other purgatives, that, while they operate gently, they produce neither cosiveness, debility, or too great excitement.

Whenever there is a predisposition to receive disease from manh effluvia, er from a too copious use of ardent spirits, or from a viitated state of the bile, these pills will assuredly counteract it.

They are highly recommended to travellers by sea or land, and may be made use of with safety without change of diet, and in situations where no exercise can be used. They will be found particularly valuable for preventing diseases incidental tohot climates; they deterge and cleanse viscid humors, open ob

T OOK HERE.—Persons suffering from colds A —situated six miles east of Winchester, Va., and one mile and a half from Stephenson's depot, on the Winchester and Potomac railroad—are now and one mile and a half from Stephenson's depot, on the Winchester and Potomac railroad—are now open for the reception of company.

This water is inferior to none in the State, as it holds in solution sulphureted hydrogen, iodine, and magnesia, imparting tone to the system, and acting as a powerful alterative, as numerous visiters can testify, having been visited for the last fifty years, and, had it not been for its contracted accommodations, must have been among the first watering places in the Union. For the last five years, the improvements have been increased so as to accommodate between two and three hundred visiters.

The proprietor has endeavored to put this watering place on a footing with the most fashionable and comfortable places of the sort, in a plain style, and will use every exertion in his power to make his visiters comfortable.

It is easy of access for all the Atlantic cities. Persons leaving Baltimore in the morning cars will arrive at the depot at 3 o'clock the same day, where a coach will be in readiness to take them immediately to the springs.

The proprietor feels thankful for the encouragement he has received from the public, and will use every exertion to merit a continuance of it, by making those comfortable who may give him a call.

VALUABLE FARM AT AUCTION.—On at 12 o'clock, will be sold, that desirable and valuably farm situated at the mouth of the Western Branch of Elizabeth river, about three miles from Norfolk and Portsmouth, Va., and immediately fronting Hampton Roads, affording a splended view of the shipping, steamers, &c., passing to and from Norfolk. This farm is acknowledged by all acquainted with it, to be one of the most healthy and pleasant in this section of country. It contains about eighty-four acres of superior land, which is now in a high state of cultivation, having been very highly manured every year for the last three years, and has now on it about 6,000 splendid peach trees of the choicest kind, some of them in the prime of bearing, one full crop of which will pay the entire purchase money; there are also on this place, six acres of asparagus, and one of the beat shores for planting oysters in this neighborhood, which will maintain 10,000 bushels, from which \$1,000 to \$4,500 yearly may be realized.

The buildings are large and commodious—much more so than are usually to be found in this section of country. As a garden farm, it possesses superior advantages; it being immediately on the river, and convenient to both the northern and southern markets by railroad, steamboats, &c.

It is presumed that persons disposed to purchase will examine the premises with its many advan-
